WHAT IS UNIT HEALTH?

Since we have limited Commissioner resources, we need to focus available resources on units with greatest needs. Bay Lakes Council in Wisconsin presented their Unit Health Index approach at FTC on June 2022, and we are testing our pilot on the Bay Lakes Council Document. BSA National is conducting developing the Health Index Criteria in 2024 based on BSA 9/25/2023 Draft Index efforts. MCC has decided to pilot it in 2023. By using the approach now, MCC can benefit from it sooner and at the same time help establish criteria for it nationally based on our experience.

UNIT HEALTH INDEX

The five Unit Health Index parameters are Unit Size, Unit Growth, Trained Leaders, Advancement in the last year, and attending Summer Camp or equivalent.

Commissioner Service need to move resources from units with Health Index of 4 or 5 to units with Health Index of 1 and 2.
